Wild-caught in Hungary or Romania

- Adult hares with numbered rings
- Pregnant females (renowned)
- Health certification, EEC standard
- Wild-caught in Hungary, Romania
- Health check by blood test
- Exceptional results

Dear customer,

We are pleased to present our prices for wild hares caught in Hungary or Romania, carefully selected for their vigour, hardiness and excellent breeding ability.

These adult hares are ideal for restocking and release on your hunting grounds.

Each batch comes with its health certificate compliant with European standards, issued by the official veterinary services, guaranteeing full traceability of each animal from its capture area.

100 % of hares ordered in 2024 were delivered.
